Letter of Endorsement of World Cleanup Day
of
Let's Do It India Foundation

AcSIR endorses the actions of World Cleanup Day Movement led by Let's Do It India Foundation" (<https://letsdoitindia.org/>) in India for the care of the environment and the ecosystem on the planet. It is also in alignment of the Swachh Bharat Mission of India. AcSIR staff, faculty members and Students would participate in the World Clean Up Day on September 17, 2022 with full spirits.

AcSIR understands that World Cleanup Day 2022 will be the biggest peacetime civic action in human history, engaging over 191 countries and millions of volunteers around the globe. In absence of full scale social and corporate responsibility for the waste pollution and especially its effects on the environment both on land and in the ocean, as well as its inevitable impact on health, hygiene and poverty, continue to be a catastrophic problem in many countries.

Crisis of appropriate waste management requires our collective attention and actions. The situation can only be improved by increasing awareness and promoting socially responsible behaviour on an un-precedented world scale, if we are to prevent its disastrous and irreversible negative effect.

I hereby invite everyone of the AcSIR staff, faculty members and students as well as public at large to actively participate in this initiative in all forms possible at their level. The campaign and initiative that will take place around the India and Globe in the frame of the World Cleanup Day on 17 September 2022.

I look forward to participation of one and all nationally, on this forthcoming World Cleanup Day on 17 September 2022.

(Prof. Rajender Singh Sangwan)
